COMPANY PROFILE 2026

ABOUT US

JE COMPANY
for General Contracting

Founded in 2015, JE Company is an Egyptian contractor specializing in the design and manufacture of communication towers and steel structures. We deliver telecommunications infrastructure with a focus on quality, project budgets and delivery schedules.

Our services cover fixed and wireless networks, civil infrastructure, turnkey site construction, and the supply of materials and equipment. We also provide solar power solutions for telecommunications sites.

Drawing on our technical experience and resources, we develop practical solutions tailored to each project. We work closely with our customers to understand their requirements and build lasting relationships through reliable delivery.

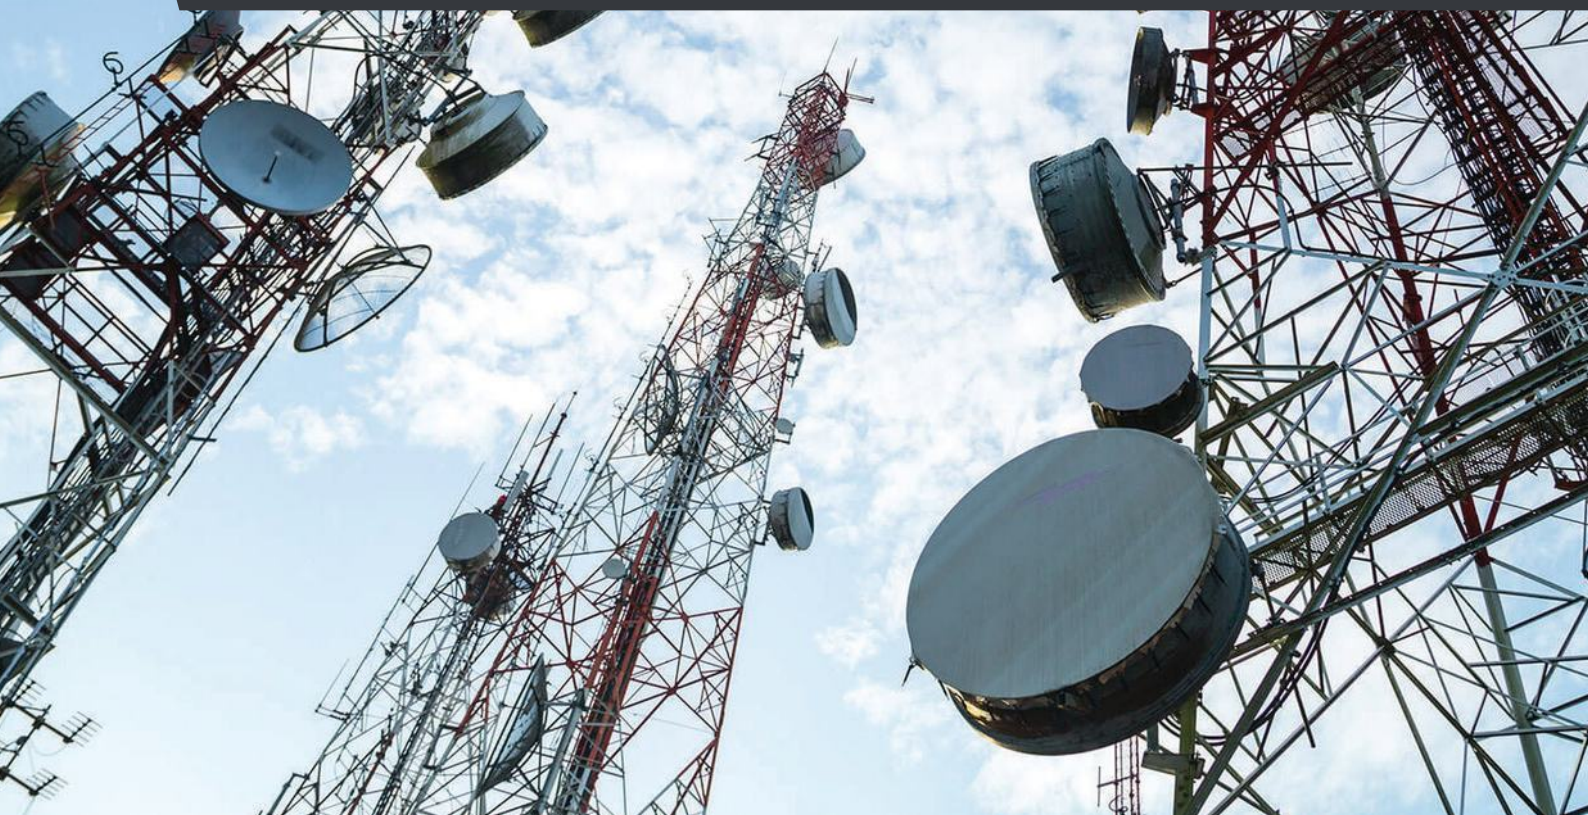

JE COMPANY
for General Contracting

VISION

To be a trusted leader in communication tower design and manufacturing, delivering innovative infrastructure solutions that combine quality, sustainability and professional execution.

MISSION

To meet our customers' needs through reliable services and tailored solutions, while building long-term partnerships that support shared goals and successful project delivery.

JE COMPANY
for General Contracting

GOAL

To expand our capabilities in renewable energy and telecommunications infrastructure, supporting sustainable growth and reducing environmental impact.

VALUES

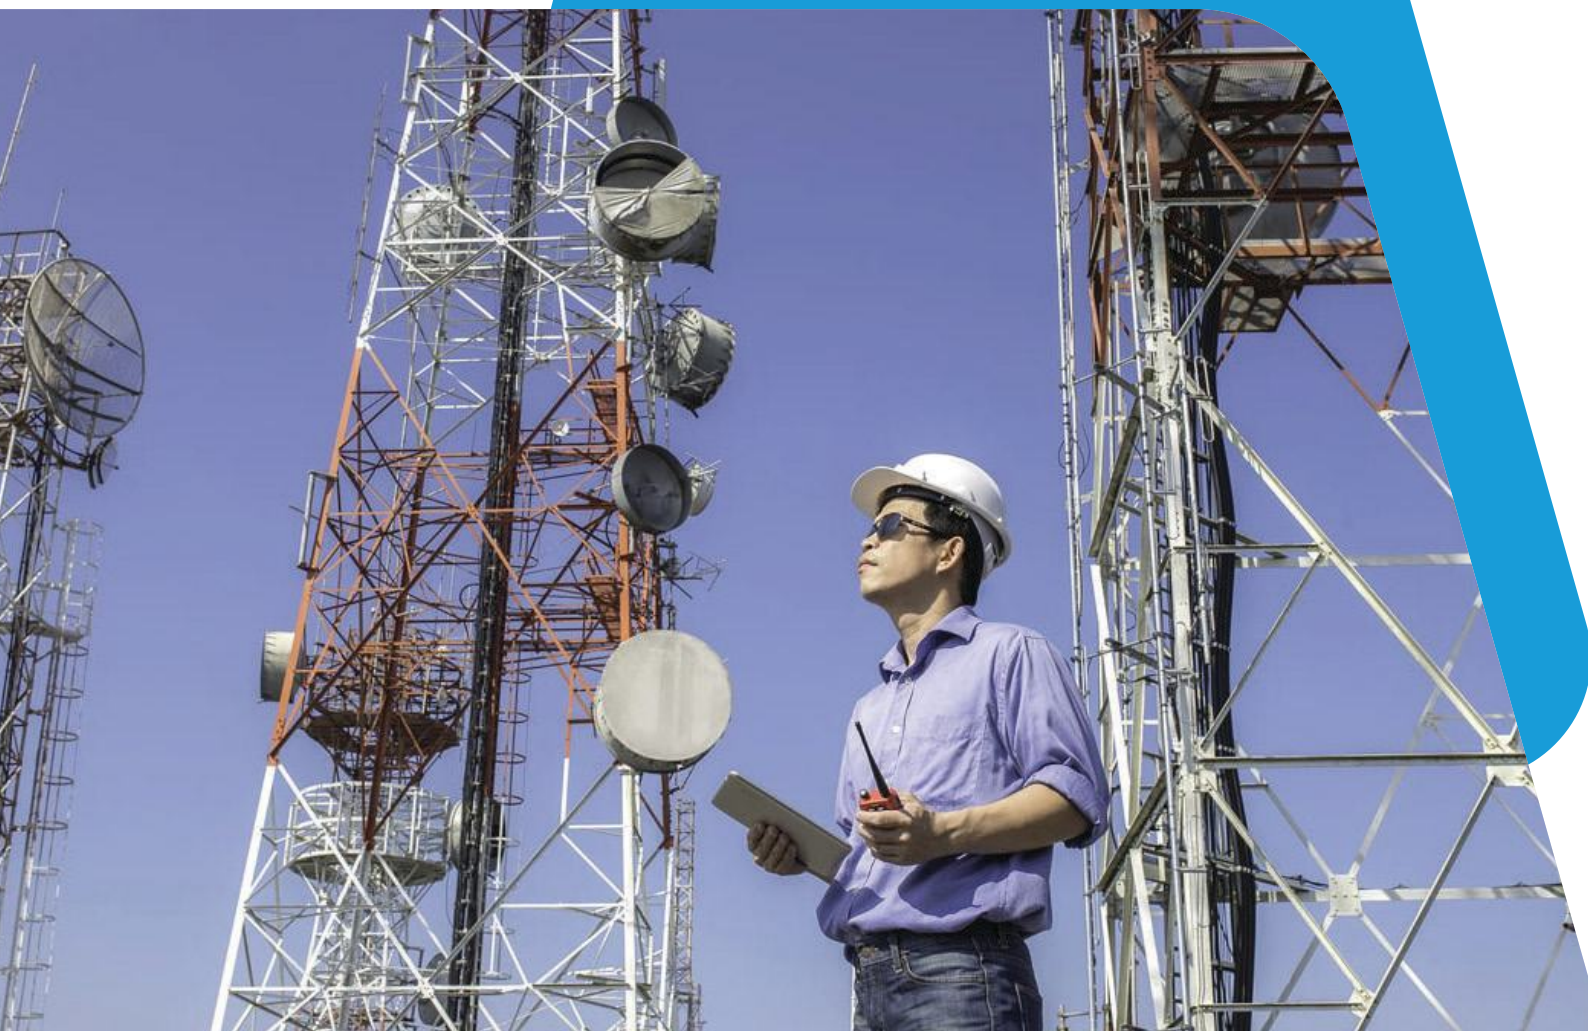

Professionalism: Maintain high standards in every aspect of our work.

Quality: Deliver services and products that meet customer requirements.

Commitment: Honor our agreements, specifications and delivery schedules.

Innovation: Apply practical ideas and up-to-date technical solutions.

Responsibility: Consider environmental and social impacts in our work.

SERVICES

Communication Tower Supply & Installation

We design, supply and install communication towers to meet project requirements and technical standards. Our capabilities include palm-tree towers, monopoles, greenfield sites and rooftop installations.

Fixed & Wireless Network Deployment

We deploy and maintain fixed and wireless networks, supporting cellular network expansion and wired network upgrades with solutions tailored to each project.

JE COMPANY
